August	08/07/2018	Canyon view Community Center 471 Maidu Drive, Auburn CA	Barney Swan: The Antarctica Experience. Globally recognized in the world of adventure and sustainable development, Barney Swan is the first person to ski to the South Pole powered by renewable energy. Traversing 1000 kilometers over 65 days, he survived using NASA designed solar ice melters, lithium batteries, and biofuel made from waste. The incredible journey marked the launch of the ClimateForce challenge, a solution driven mission to clean-up 360 million tons of CO2 before the year 2025. Barney was born in London and was raised in tropical Far North Queensland, Australia. Being raised off grid instilled at an early age a heightened respect for the value of energy, basic necessity, and everyday convenience. Barney's passion for the planet motivates him daily to build a legacy through tangible solutions that are attainable by all.
